

## **Religious Studies – Developing an awareness of global religions and beliefs**

Students attend lessons in Religious Studies to all students at Key Stage 3 and in addition, we offer it as an option at GCSE.

As part of the Curriculum 2025 working paper, Religion and Ethics is being explored as an A Level.

Each student participates in a chapel service each week and PSHE is taught from Year 7 throughout to Year 13.

The school places a significant emphasise on developing the awareness of comparable world religions. The audit below shows how all students from Years 7 to 13, both residential and day, benefit from the exposure to world religions. The audit also explores how these areas might develop their provision as part of the Curriculum 2025 working paper.
