

Whole School Performance Information

The data on this page refers to the academic year 2018-19 and 2021-22.

The academic years 2019-20 and 2020-21 are not included due to the absence of public examinations relating to the COVID 19 pandemic.

It should be noted that whilst the academic year 2018-19 is the most recent published data, it is effectively outdated. However, it does provide a useful historical context.
