

# Gordon's Careers

Pick of the Week and Useful Resources:

17 June 2020

Look out for apprenticeship and higher education links and useful tips and resources on:

Instagram (careers at gordons)

Twitter (GordonsCareers)

SATRO aims to inspire young people to understand the world of STEM. The online resources provided <u>here</u> are a selection of those chosen by the team to support you to continue your interest in STEM whilst schools are closed.

Each week they will supply new resources on a topic of interest which will include: an introduction, career information, famous people, resources for learning and links to SATRO activities.

#### **Allianz Insurance**

Allianz Actuarial team will be hosting a virtual Open Day on Friday 17th July for A-Level and university students. Join them for an introduction to Allianz and the insurance industry, and find out more about their actuarial careers by listening to guest speakers from their actuarial, risk and pricing departments. If you would like to attend, register by Tuesday 14th July via this link.

University of Leicester - Subject Tasters and Parents and Carers Webinar. All information can be found below

Digital Subject Tasters – As well as live chats, all of our events will include either live taster lectures, or a live debate around a topic related to their chosen subject. Today (Wednesday 17th June the subjects are Business, Economics, Accounting, Biological and Natural Sciences, Chemistry. Students can find information and book for events **here**.

Welcome to the 10th edition of their new series of weekly updates. Each newsletter will discuss key areas surrounding the Higher Education sector and offer support for the university application process during this difficult time.

This issue is a subject spotlight, where they provide information on a course they offer to help students learn about the options at university. Click <a href="here">here</a> to see.

GE's #STEMtogether launched in early May and will run at least for the remainder of this academic year, providing a source of online STEM inspiration learning opportunities intended for young people aged 11-18 years old. The aim is to maintain interest in STEM, while not being able to visit one of GE's sites or be in a school environment. It is a two part scheme, the first is a project and the second is a weekly worksheet challenge with a leader board, though it is not compulsory to take part in both. There are two projects to choose from: a medicine delivery system and a Mars rocket. They both will have hardware, software and systems engineering aspects, as well as some maths and science elements. The worksheets are being released weekly at with a coded form submission in order to be included on the leader board. Click here for further details.

WorldSkills UK is proud to have launched their new digital resources that aim to help develop young people and educators from Key Stage 3 upwards. Click on the picture for further details.

# The Stemette Society

A closed social network for young women aged between 13 and 25.

Your opportunity to connect with like-minded young women and non-binary young people in a safe and moderated online space. Discuss things you've seen in the Zine, experienced at school or have learnt from STEM events like the ones run by the Stemettes. A global network to help you learn and get into the STEM industry – chat with your peers and get advice direct from TeamStemette. Register <a href="https://example.com/here">here</a> to join

Showing the next generation that girls do Science, Technology, Engineering and Maths (STEM) too at their free, fun, food-filled experiences. Click <a href="here">here</a> for more information.

## Uni Taster Tuesdays - Weekly university guidance webinars #UTIAG

The coming weeks will see an increase in online events advertised by universities, so this newsletter will have a temporary focus on these online opportunities for students and school groups. Click <a href="here">here</a> to view.

### This week's Careers Insight Talk .......

How do you market yourself and create your own branding?
