Objective 1: Challenges

You should attempt both challenges.

Visual dice challenge

Difficulty: **⅍**

Write a program that will output the number 5 on a dice like this:

00000000000			
0			0
0	#	#	0
0	#		0
0	#	#	0
0			0
00000000000			

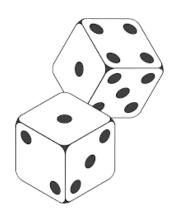

ASCII art challenge

Difficulty: **⅍**

ASCII (pronounced: as-key) art is a graphic design technique of making pictures using only the 95 printable characters on a keyboard.

Write a program that outputs your name in ASCII Art.

You may find it easier to create the final output in Notepad first and then copy the lines into the programming language.

```
88
                             88
                                   88
            88. 88
                      88
                            .88.
                                   88.
                                       ~8~
